

AMENDMENTS TO THE SPECIFICATION

IN THE SPECIFICATION:

Please amend paragraph [0022] as follows:

--[0022] As shown in FIG. 1, the disclosed auto-backup system for portable electronic devices is implemented between a portable electronic device 60 and a network server 70. The portable electronic device 60 has an input module 101, a network connecting module 102, and a backup management module 103. The network server 70 includes a backup I/O module 104 and a network database 105. The network server 70 has a definite IP address. The portable electronic device 60 has an interface 601, a microprocessing unit 602, and a storage device 603.--
